

2009-2010 Ohio Inmate Phone Commission Totals

Prior to the contract change the revenue was more or less \$15 million annually.

2009	13,531,849.15
2010	17,236,087.91

2010 is so high because there were 14 months' checks deposited, four of which were at the new \$1.25 million monthly rate. 2009 is low because there were only 11 months' checks deposited. The variance is just due to timing of deposits.

Thank you.

Subject: Request re ODRC prison phone contract

Dear Ms. Smith,

I left a phone message for you earlier today, and am follow-up with this email to provide greater detail regarding my request, related to the ODRC's inmate phone system provided by Global Tel*Link.

Pursuant to the 2010 contract, ODRC receives a commission of \$15 million annually, and received that amount in FY 2011 and 2012.

I am seeking the prison phone commissions that ODRC received in FY 2009 and 2010, before

the current contract went into effect.

Please advise if you can assist in providing this information - many thanks!
