Message Contract.pdf (686 KB)

Good Moming Melissa,

Obviously an operator error on this end. I have attached the contract and it appears to have "stuck" this time. I also got the actual commissions you requested. They are from our Edison system and confidence in its accuracy is high. FY '09 – not so much. This was the changeover I mentioned, figures are on two systems, and research will be reconstructive and manual. The bad news is that with year-end close out and the beginning of our budget cycle, it will be months before resources will be available to tackle this project. Looking at the 3 available years I believe you would be safe to assume a figure in the \$2.5 - \$2.9 million dollar range for FY'09. Please let me know if I may be of further assistance.

FY10 \$2,954,100
FY11 \$2,679,000
FY12 \$2,555,800

Thanks and Have a Great Day, Bill

Hello Bill,

Thank you for your response. Unfortunately, there is no attachment on my email; could you try attaching the contract with GTL again? Thanks for looking into commissions, as well. Please let me know of any costs. I look forward to hearing from you soon.

Have a great weekend, too,
Melissa
