

Mike,

This is the only information I could obtain on contract PD-917 with AT&T on the revenues paid to the state.

AT&T will pay 38.0% on the gross Inter-Lata traffic. There will be no deduction for uncollectible, unbillable, or fraudulent calls.

U S WEST will pay 38.0% on the gross U S WEST local and IntraLata revenue. There will be no deduction for uncollectible, unbillable, or fraudulent calls.

Tele-Matic will pay 38.0% on the gross local and IntraLata revenue. There will be no deduction for uncollectible,

This contract expired in 2001 and we believe it was before we started collecting revenue information in purchasing. The person who is in charge of those reports is checking for any reported information and I will send you anything we find.
